THE LAST SIX-SPEED TRANSMISSION ROLLS OFF THE TOLEDO FACILITY LINES AFTER BUILDING OVER 7 MILLION TRANSMISSIONS

In 2007 General Motors announced a \$500 million investment at the Toledo facility, to produce the first six-speed transmission, Hydra-Matic 6L80. The new investment was used to do a partial renovation and a 400,000 sq. ft. expansion, as well as new machinery, equipment, and tools to support the new processes.

The introduction of the six-speed marked an exciting new chapter in GM Toledo's 90-year history of producing efficient, reliable, smooth-shifting automatic transmissions. A strong partnership with Local 14 UAW resulted in a unique work agreement to produce world-class transmissions.

When the six-speed transmission was introduced, a new "Team Concept" was also negotiated for the members of Local 14 UAW. This concept included members working together with a designated "Team Leader" to promote efficient and more productive value. Team members worked with engineering personnel to provide input on product design and impact on manufacturing. There was also heightened safety initiatives that were also included in the "Team Concept" arrangement, with a workplace goal of "zero incidents." This was one of the most successful launches in Powertrain history.

Today, because of the success of the six-speed transmission, Toledo has moved onto more efficient transmissions. We currently build eight-speed, nine-speed, and ten-speed transmissions. The future remains bright for Toledo. GM is investing \$760 million dollars into the Toledo facility to make Electric Drive Units. These units will take the place of the six-speed transmission.

Run-off Election (if necessary) one week later

Open to all Local 14 UAW Members, Active and Retired Per the Bylaws

Fraternally, Deneen Dillard, Chairperson • Local 14 Election Committee.

The Second Annual Spring Fling at the Tam-O-Shanter was a huge success!

good times

PRESIDENTS REPORT

BY TONY TOTTY

I hope this report finds you and your family well. We just held another session of retirement classes. We will have them again towards the

Tony Totty - President

end of the year. These classes consist of Retirement Planning, Social Security Benefits, and UAW Retiree Medical Benefits Trust. Thank you to all that attended. We are in a contract year that means many things. Normally more retirements take place right after the contract ratification. There are hopes to receive many gains in this contract and an increase in pension is one of those hopes. We are lucky to have Jeff King at the table to bargain for the entire UAW/GM Membership.

Seeing how this is a contract year, we should be mindful that a strike is always a possibility. Although we never want to strike, some of our greatest gains came from striking. Our Founder Bob Travis ran the Flint Sit Down Strike that changed America! In 1970, the UAW struck GM for a 67-day strike that shook up the economy. Over 300,000 members walked off the job. We secured 30 years and out pension during that strike. UAW Local 14 Member Ray Fisher was the first 30 years and out member to take advantage of this benefit.

In 2007 and again in 2009 large concessions were given to the companies that have not been given back. These companies will not give them back out of the kindness of their hearts, it must be taken. By now, hopefully this isn't new news. Hopefully our members are prepared for any scenario. The strike pay has doubled since we went on strike four short years ago. We've been advocating that members take advantage of the Money Matters book that is available on the Local 14 website. No matter who the strike target turns out to be we should be ready to support the entire UAW Family!

One way to support our UAW Members in this industry is to know how to read a VIN Number. Then, inform family and friends. It's astonishing that in my lifetime we went from 300,000 UAW/GM Members down to under 50,000. Every Buick isn't a Buick! Only the Buick Enclave is made in America. We need a Made In America Campaign again. The buying public needs to be educated on what vehicles we make, and which ones are brought in with bad trade deals. Our negotiators need all the help they can get at the table, buying a vehicle with a VIN that starts with a 1,4, or 5 helps! Please educate all those you can influence.

Lastly, it feels great to be a Local 14 member, be proud of who we are! Local 14 is as old as the UAW itself. We've had delegates at every UAW Convention

that has ever been held. Throughout major events in the UAW, most likely a Local 14 member was there. Our legacy was handed down from our retirees who we owe a great deal of gratitude and hopefully a Christmas bonus. We've been through a lot and because of the new EV work our facility will be here in the future.

In Solidarity,
Tony Totty
UAW Local 14 President

CHAIRMAN'S REPORT

BY JEFF KING

Brothers and Sisters of Local 14,

We are at a crossroads.

At the Bargaining Convention on Wednesday, March 29th, a union elected Convention Delegate decided to take a local issue, overtime, to the International Union. He said he was forced 12 to 14 hours per day. The problem is that he is a skilled tradesman and is in a three-shift operation.

While he could be forced 7 days, he can NOT be forced to work past 8 hours.

This caused other UAW Locals who have not received new product to question why Toledo was getting so much work. They want to know, if Toledo works so much overtime, why they were not getting those products.

For clarification, if we lose just ONE of the EV Products it could possibly cost Toledo over 300 jobs in our plant.

Part of our job as your elected committee is to bargain for new work to ensure the future of our plant. We have taken that very seriously and will continue to negotiate for more. This has helped us get temporary employees converted, secure the future for our lower seniority members, and, most recently, stopped our lower seniority members from being laid off with the six speed transmission going away.

This plant has run under Document 83 since 1989. When properly implemented, it has been particularly good for all of us in Toledo. Being in Document 83 has helped bring a lot of new products to this plant. Has management abused it? Yes. We all know that management will always try to abuse every agreement but each time this committee has fought to get them to honor what we have agreed to.

We understand that some people are advocating for the Memorandum of Understanding on Overtime outlined in the National Agreement. We encourage everyone to read this Memorandum. It gives management the right to pick between Plan A and Plan B once per model year. Once per year, management would be able to put our plant in Critical Status for 90 days. Read what both of those truly mean.

Shop Chairman
Jeff King

For those seniority members that work in production or assembly, the current Local Agreement outlines a very clear way for you to be excused from weekend overtime. If you are being forced, you should be placing committee calls. The flow charts and other provisions in the Local agreement outline the steps management has to take before they can force you. They have to show us what they did to try to get you out of working. There have been people in both assembly and production that are signing up to work weekend overtime. I have spoken with the committee, and they are not receiving a lot of committee calls on this issue.

We have also discussed daily forced overtime in assembly with management. While this may happen on some occasions due to machine downtime and other unforeseen circumstances, the expectation from this committee is that no one is working more than 10.4 hours per day. That is the schedule for all current areas in assembly. Management is trying to determine throughput issues and correct them to keep at that schedule.

For the trades that are being forced in 7 days per week, we hear you. Your committee representatives, along with myself, have been meeting with management to discuss ways to alleviate the forced weekends. I will tell you that their current stance is to bring in contractors. They even have a group that claims they are ready to start right away. We have always been against this because, once they're in here, it's going to be impossible to get them out. However, if that is what you want, tell us. Management is absolutely on board with making that happen.

For those that will say "why don't they just hire more trades?" We attend a weekly manpower meeting and are highly active in trying to see that happen. The problem is that it has been very difficult for management to get trades from off the street and the corporation will not let this plant exceed the number they determine this plant needs.

There are naysayers that will tell you that we are "lying to you" or just trying to use "scare tactics". We have heard and read this a lot. That is not the truth. We are being honest with you. You can believe what you want, however, for those that have doubts, look to facilities in Flint, Michigan and Fort Wayne, Indiana. The products they make are dual sourced, meaning that those products are made in other countries, as well as the United States. Just like all products we make. Their Shop Chairmen warned them that if they couldn't meet schedules, management would take work out of their plant. They did not believe him, and management DID send work to those other countries.

Please remember that this is a contract year. We are accepting Local Contract demands starting April 5 until April 28. Please put in demands so we know what direction the membership wants us to go.

In Solidarity,
Jeff King, Shop Chairman
Local 14 GM Toledo Global Propulsion Unit

FINANCIAL SECRETARY REPORT BY SUE RODGERS

Greetings Local 14 UAW Members.

The RBC Bank account balance on 3/31/2023, was \$2,827,304.93. The book value on 3/31/2023 was \$2,776,743.12. The actual value was \$50,561.81, higher than we can report in the Financial Statement. This is our unrealized gain, and if we cashed in our investments on 3/31/23, our payout would have been \$2,827,304.93.

Financial Secretary
Sue Rodgers

Local 14 UAW membership voted at the April Amalgamated Meeting to set the dates and times for the Local Elections. The elections were set for Wednesday, June 7, 2023, at 6:00 PM to Thursday, June 8, 2023, at 6:00 PM (24 hrs.), for Active GM and DFM Members at the GM Plant. All retired members and laid off workers in 2023 can vote Thursday, June 8, 2023, from 8:00 AM-6:00 PM at Local 14 Hall. All members in good standing will receive an election notice in the mail.

The Local 14 Union Hall was built in 1952 and was previously owned by the county engineers. It was purchased by Local 14 on October 1, 1964. In 1990, Local 14 made several renovations including new restrooms and an elevator. The sewer line to the restrooms was the original clay tile and was never updated. We had a contractor do some camera work in the sewer line, we found some tree roots and broken tiles. The tree was removed that was causing the issue, and the sewer line was fixed by a Union Contractor. Our total cost for all this work was \$11,500.00.

Congratulations to Vaughn Patterson on his new position as our Chaplaincy Committee Chairperson. Thank you for stepping up and taking on this very important role in our union. I would like to thank our past Chaplain Randy Pitney, for his hard work and dedication over the past several years. We wish you well!

The second Spring Fling event was held at the Tam-O-Shanter in April. We had a great turnout from our active and retired members. We are hoping to continue this event next year. Thank you for your support.

I would like to truly thank the membership for your support over the past six years. It's been a pleasure working with Tony Totty, our current President. Tony has worked very hard for our membership and the community. It has been an honor to serve our membership.

In Solidarity
Sue Rodgers
Local 14 UAW Financial Secretary

REPAIRS AT LOCAL 14 UAW UNION HALL

The tree had to be removed because the roots caused a sewer line break. Local 14 UAW used a union contractor to fix the issue.

AUTISM AWARENESS • • • • •

April is Autism Awareness month. Approximately 1 in 36 children in America are born with Autism. Autism impacts the nervous system and impairs the ability to communicate and interact. Some of our members have children who are affected by Autism. Our healthcare only covered 20 visits for care a year, which is not nearly enough treatment needed. The Kusz family knew this wasn't right and filed an appeal. A special thank you goes out to Kathy Schroder for assisting in the appeals process. All our benefits representatives do great work! During the appeal General Motors realized the liability they were facing by denying more coverage and changed the policy. While this was a step in the right direction, it still is very costly for out-of-pocket expenses for families. This is a bargaining year, and we look for improved coverage for Autism coverage. Jennifer Kusz bravely told her family's story at the Avenue for Autism event in April. Because of Jennifer and Ken, all UAW/GM families received more coverage. I was able to speak at the event as well. I said, "Unions historically bargain for benefits that later become laws that everyone benefits from." This is why unions are so important and needed! We need Autism coverage in every insurance policy in this country at an affordable cost! We reached out to Senator Browns office and secured a meeting for changing the law in this country. This will be a long road to justice, but we can make this happen. We will keep you posted on the progression of this important issue.

In Solidarity, Tony Totty

COMMEMORATING MARTIN LUTHER KING JR.

The annual UAW Local 14 Martin Luther King Jr. event returned this past January. The Civil Rights Committees had a full house to hear Keynote Speaker Walter Neagle and the story of Bayard Rustin. Thank you to all that attended, we look forward to next years celebration.

OSCAR BUNCH 2022 SCHOLARSHIP WINNERS

The second annual Oscar Bunch Scholarship winners were honored and awarded scholarships to help them achieve their education goals. The scholarships were given in honor of our late past President, Oscar Bunch. The funds were paid out of the Local 14 Education Committee. Thank you to everyone that applied.

Pictured Left to right: Jack Hamilton, third place winner of \$2,000 scholarship; Cheryl Cleevly, mother of Jack Hamilton; Wes Bunch, son of the late Oscar Bunch; Tony Totty, Local 14 UAW President; Ruby Bunch, wife of the late Oscar Bunch; Cammie Herrera, first place winner of \$5,000 scholarship; Adam Herrera, husband; Yvette Diggs-McKinney, grandmother of Kamyia McKinney; Kamyia McKinney, second place winner of \$3,000 scholarship; Samya McKinney, mother of Kamyia McKinney.

MEMBER SPOTLIGHT

Kelly Williams is the focus of this Members Spotlight. In January, Kelly performed stand up comedy at the Toledo Funny Bone. The show was sold out and Kelly did great! For many of our members, this was the first time we saw her perform on stage. We see her perform in the facility every day at work. We were so proud to call her our own! The Local 14 Recreation Committee assisted the ticket sale to make sure everyone was able to see her show. We had close to 100 members in attendance. Famous comedians like Steve Harvey and John Witherspoon were UAW members before they received their big breaks in comedy.

Normally I spend a day with a member to learn their passion. I didn't have to do that with Kelly because I worked with Kelly on 8 Speed ML3. I've always enjoyed her friendship and humor. She always has the jokes! Kelly started with Delphi Adrian in 98 and later transferred to Toledo.

Kelly did her first stand-up comedy set in Kansas for her sister's 50th birthday party 12 years ago. People started requesting her to perform at private events. She writes her material after she finds out details about the person. Kelly is a clean comedian that likes to be prepared with her personal touch in performances. Nervousness is a thing that all comedians experience and Kelly is not immune. Once she gets on stage and gets the mic, she senses the vibe from the audience and that makes it fun. Her longest performances are normally 20 to 25 minutes long.

Kelly was not a stranger at the Funny Bone, her first performance there was in 2010. She has been on shows with comedians Bruce Bruce, Ms. Pat, and Queen Cookie. The road is something that she doesn't want to take on now but, in the future, it might be an option after she retires. She also expressed interest in hosting and comedic plays if jokes are involved.

Our workplace is very lucky to have Kelly, she has jokes in good and bad times. She also expressed her gratitude for all our members supporting her. I had an enjoyable time interviewing her for this article after the performance. I got to catch up with my friend. Thank you, Kelly, for sharing your passion with us!

Bravo!

UNION LABEL CHAIRPERSON JAMELE WALKER

Greetings everyone! March has clearly come in with a strong wind force. As we Spring forward in 2023 keep the Union Label/Made in the USA first and foremost on your shopping lists.

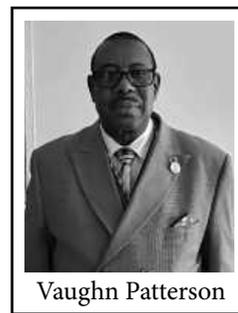

Jamele Walker

The Union Label Letter is a great way to keep up with Union information. The link below gives you the Label Letter for January and February 2023. Check it out! https://unionlabel.org/labelletter/

Our yearly Market Day event has been rescheduled for 2024. Keep a look out for announcements on other future events. We value our local businesses. Our Union earns dollars and dedicated labor keeps our community thriving. As we live and work in a global economy, we have a choice of so many products and services. Choosing Union Made and Made in the USA keeps our Union relevant and working. Competitive wages and prices have drawn many businesses overseas. However, Union quality and dedication to workers' rights, fair wages and workplace safety is part of the Union promise. With collective bargaining for a better future for all workers. Look for the Union Label.

CHAPLAINCY CHAIRPERSON BY VAUGHN PATTERSON

We are excited to announce our new Chaplain Committee Chairperson, Vaughn Patterson. Vaughn has been active on the Chaplaincy Committee since 2014 and would like our members to know, he is here for you! We thank Randy Pitney, our former Chaplain, for his hard work and dedication to the committee.

Vaughn Patterson

The Chaplain Room is open in the plant and Vaughn welcomes you! He encourages you to pick up the Daily Bread Ministry Books in the Chaplain Room and at the Union Hall. If you need to reach out to Vaughn, his cell phone is 734-748-8023.

LOCAL 14 RETIREE CHAPTER

Henry McCoy

Dear Brothers and Sisters,

Well it looks like the elections are over, we have a new International President, Shawn Fain, who beat President Ray Curry for that position. I was disappointed with this result, but life goes on. Hopefully we can unite and get things done for our membership, this is a contract year, and we will be negotiating a contract for the active employees and hopefully our retirees can get some advantages also. Vice-President Mike Booth will oversee the General Motors division.

Henry McCoy

We will have nominations and elections for our Retiree Chapter Officers at our May meeting. If you are interested in running for any of the positions, you must be present at this meeting. The offices are President, Vice-President, Secretary/Treasurer and Sgt. At Arms. The Local 14 Election Committee will conduct this important election.

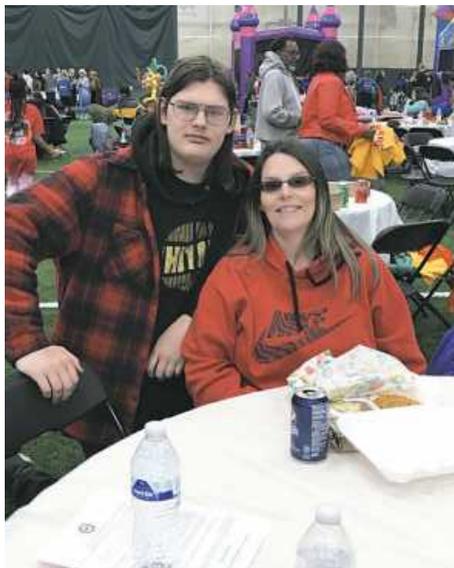

We had another bus trip to Fire-Keepers Casino in April. The retired members of Local 14 were given their first chance through a text message, and non-members were put on a waiting list. The bus trip was filled within one day. The Retiree Chapter pays for this event through our dues. We are in the process of scheduling another bus trip and this will be first offered to members that attend our meetings. If we do not fill the bus, we will offer this to all other Local 14 retired members through a text message.

We have good attendance at our meetings, thanks for coming and participating. We thank Diane Benton for having a Jigs dinner at our March meeting as we celebrated St. Patrick's Day.

I hope everyone was able to enjoy the Easter holiday with their families. The Toledo CAP Council put on their second annual Spring Fling at the Tam O'Shanter. This was a huge success, and we thank all the retirees that were able to attend.

With the new product coming to our plant, some of our temporary employees were laid off. We wish them well and hope to see them back when this new work is ready to start up.

In Solidarity,
Henry McCoy
Retiree Chapter President
